The diagram consists of a single horizontal line. There are seven vertical lines of varying lengths intersecting this horizontal line at different points. From left to right, the vertical lines are: a short line near the left edge, a medium-length line, a long line extending almost to the right edge, a short line, a medium-length line, a long line extending almost to the right edge, and a short line near the right edge. This represents a sequence of events or a timeline.
